

Visit Crafters

Features

This is your "How it Works" page. You will have your own page plus be listed on the Crafters page. Naming of your page is discussed after the Features section plus an example of an actual page.

1. Descriptive Information

You need to tell people who you are, what you do and how you do it. You furnish the text and we will put it on your page. The amount of text you provide can be unlimited but should be precise. Describe your craft business and provide testimonials if you have any. We may be able to incorporate your business logo as well if you provide it to us.

2. Photos

Photos help sell your craft. You are allowed up to 3 photos on the page. We can resize them to fit the page as well as link to the original so it can be viewed large.

3. Contact Information

Naturally, you will want someone to contact you so we need to put your information on the page. In addition to usual information like name, address and phone, we will include a contact form that will allow someone to fill in information and the form submission will come to your email address.

4. Documents - Order Form, Brochure, etc.

Supply us with any documents that you would want someone to download to save or print. We can upload it and make it available to them. For example, you may want a list of your crafts with prices available for someone to download to save and/or print. Although we can convert most documents to a universal .PDF, we prefer you supply it to us in that format.

5. Free GOOGLE Calendar

Every crafter desires repeat business but keeping your customers up to date on what shows you will be at should be easy. A free GOOGLE calendar is the answer. You create and maintain the calendar and we embed it into your page. It is a simple way to keep track of what shows you have done and will be doing in the future. The calendar is easy to work with and we can provide assistance.

The above features are included in your fee found on our pricing page. We have software that creates a very good **Photo Gallery** that can have both photos and videos in it. If you want one included, we can give you a quote after discussing exactly what you need.

Choosing a Name for Your Page

Your page will reside on this site as a directory. It is best to keep the name as close to your business name as possible because this is your direct link to your page. The name can't contain spaces and should be all lower case.

Example Page

Our example crafter is Accents by Elle. Her page is at www.visitcrafters.com/accentsbyellie . You can visit the page and view how it is setup. It has examples of all the features plus a photo gallery.

Referral Program

You can earn a commission by referring other crafters to Visit Crafters. To be eligible, you must have a page on this site. See the Pricing page for more details.
